CONSTANTINOPLE. September ?.—

Consular accounts received here from
Beirut totally differ from the Turkish
version of the outbreak there. The wait
of Beirut was not on board the United
States flagship Brooklyn when the first
brawl occurred, but was in the country.
Contrary to the official version, the consular dispatches say the Musaulmans first
attacked the Christians and the troops
which intervened sided with the Musualmans. One of the pillaged houses belonged
to a French citizen. Though there has
been no further disturbance at Beirut
since Sunday, great uncasiness, amounting almost to a panic, prevails among
the Christians, many of whom have left
Beirut and sought refuge in Lebanon.

POWERS TO PRISERVE ORDER.
The foreign consuls at Beirut mot on
Monday and decided to make serious representations to the local authorities locking to the preservation of order. They
also deeded to telegraph to their respective ambausadors or ministers at Constantinople demanding the recall of the
incompetent vali of Beirut, and requesting that ships be sent for the protection
of Europeans.

Several of the diplomats here drew the serious attention of the Porte on Monday to the situation at Belrut, demanding that measures be taken to prevent a further outbreak, and insisting on the recall of the vail, who was in office when the outbreak occurred.

The Porte intends to concentrate 50,000 to 70,000 troops at Adrianople. It is said that 2,000 insurgents have been surrounded at Kirk-Killisseh, thirty-two miles from Adrianople, and official circles here momentarily expect news of their surrender or annihilation.

MORE MASSACRES PREDICTED. MORE MASSACRES PREDICTED.
Notwithstanding the large number of troops concentrated at Adrianople, the regiment of Hamidich cavalry, to which the Sulian presented colors September 4th, will leave here this evening for Adrianople. It is alleged that the dispatch of these troops can have only one meaning, namely: massacres, in which the Kurds are destined to play the same part as the Circassians did before the Russo-Turkish War.

The Situation in the Turbulent Syrian

City Grows Quieter.
(By Associated Press.)
WASHINGTON, D. C., September 8.—
The Navy Department has received a cablegram from Rear-Admiral Cotton, dated Belrut, yesterday, saying that there were no serious disturbances in Belrut Mon-day night. The situation there is im-proving, and public feeling is growing

two cablegrams from Minister Leishmany, at Constantinople. They were sent in the course of consultation with the department, and for that reason were not made public. It was stated at the department, however, that Mr. Leishman threw no new light on the situation either at Constantinople or at Belrut. Some additional instructions were sent to Minister Leishman to-day, but these went prior to the receipt of the cablegrams from him.

Turbulence—The Losses.

(By Associated Press.)

BEIRUT, Monday, Sept. 7, via PORT SAID.—Vice-Consul Magelssen, when he was fired at fecently, was near a police booth. Iliw assaliant is not yet known. The authorities are indifferent and thus far have given no antisfaction.

The Moslem section of the city from Triday up to last night, was in a state of anarchy and 'thirty 'persons were of anarchy and 'thirty 'persons were folled. Among whom, however, was no foreigners. The shops are closed, the streats deserted, and the government is seemingly unable, or unwilling, to assure the safety of the residents.

CRUISERS ARRIVAL TIMBLY.

The arrival of the American cruisers Brooklyn and San Francisco was most opportune. Admiral Cotton is on the alert and signalmen and a guard slept at the United States consulate last night. The men on board ship are under arms ready to disembark on a signal from the consul. The boats from the Brooklyn and San Francisco have reconnoitered the coast below the property of the American mission, in order to select landing places in case of need.

The American mission authorities, have demanded guards from the governor for the protection of the mission printing office and the mission property.

An attempt to enter an American residence on Saturday was frustrated.

INSIT ON VALUS DISMISSAL.

The Americans here think the United States Government should insist on the dismissal of the vali of Beirut, a notorious bribe-taker, and to whom all the disorders are attributed. The opinion here is that the powers should take action with a view to bringing Beirut under the jurification of an autonomous Christian government for the Lebanon district.

(By Associated Press.)

SOFIA, BULGARIA, Sept. 9.—The Macedonian organizations are preparing a memorandum to be presented to the representatives of the powers, in which they will declare that the insurgents intend to resort to repirals for the Turkish atrocities. The memorandum gives desided information of villages destroyed and the massacre of their inhabitants. It declares that 65,000 men, women and children have been slaughtered and 120 villages burned.

In the list of villages given only two are in the vilayet of Adrianopie, the others are principally in the Monastir vilayet.

FORMER STEVEDORE

TO RUN FOR SENATE

TACOMA, WASH., Sept. 5.—A large faction of Tacoma Republicans has decided to support State Senator Edward S. Hamilton in the next Legislature for United States senator, to succeed Senator, Foster, of this city. Hamilton has made a reputation throughout the State for neggressiveness and righting qualities. He was leader of the campaign which resulted in the election of Foster five years ago, and last winter led the fight of the railroads against Gov. McEride's forces, resulting in defeat of the State Railroad Commission bill and other anti-railroad legislation. Hamilton started in life as a stevedore twenty years ago. Soon he became a boss stevedore, employing many men to load lumber and grain ships on Puget sound. His firm now does the largest business of this kind in the Northwest. In addition to the national trophy, walued at \$1,000, which will be held by the winning team only one year, the New York team won a cosh prize of \$500.

New Jersey, which scored the second highest, aggregate total of 2,902, receives the Hilton trophy, to be held one year, and 3500. Massachusetts was third, with a total of 2,888, and will carry home the "Solder of Marathon" trophy, to be held one year, and \$200.

Massachusetts entered a protest against New Jersey, asserting that Hudson, of the latter team, was a regularly enlisted member of the Ninth New York Regiment. Major Guilfoyle, the acting officer, held that the protest must be passed upon by a board appointed by the Sectiary of War, and which framed the rules governing the competition.

The wind up of the shooting in the national match was the most spirited fenture of the meet, although it was apparent half an hour before the firing ceased that New York would win by a good margin. Each team, even those near the foot of the list, was deeply concerned regarding its standing at the finish, however, and, therefore, the work of each man on the team was followed eagerly. Even before "Gease firing" had sounded, cheering in honor of the victurious team had begun. The throng at the firing line numbered many hundreds, and the shout that arose was a mighty one.

The programme for to-morrow includes the competition of the firing in the Leech cup and company team matches and firing in the Inter-Club carbine team. Type Company team, veteran team, and the re-entry individual matches.

GREAT HOSPITAL PLANNED

Portsmouth, Va., to Be Most Important Naval Station. A Portsmouth special to the Washing-

Naval Station.

A Portsmouth special to the Washington Star says:

The Naval Hospital, in this city, will be made the greatest institution of the kind in the United States, and at once. The visit of the surgeon general, of the may Rear-Admiral P. M. Rixey, to the naval greatly will result in the expenditure of the hospital. There are now some 250 beds in the institution, and under the scheme of improvements there will be some 500 beds.

Two modern wings will be erected in rear of the present noble structure, and a third wing will connect these. There will be isolation wards and every modern convenience. A new steam generating plant and a pest house will form part of the scheme of improvement.

Dr. Rixey states that as this is to be the greatest naval station in America, the facilities for the care of the sick and wounded must of necessity keep pace with the growth of the naval establishment in size and importance.

To a committee of citizens, headed by Representative Harry L. Maynard, the surgeon general stated that their plans for beautifying the west front of the hospital met with his hearty approval, and that he will recommend that a handsone wall, with iron gates, be placed on the park front, which will soon be the main approach to hospital park. He sid that he regarded the old main cullings of the hospital as one of the mass liposing and noble plies in the United States, and that he would not for the bod building, which will still be used for administrative purposes which will be put on the west front of the park will be, in addition to the walls and grives and the curbing of the street. Lane Brothers, contractors, of Esmont, Va., have contracted with the Virginia Passenger and Power Company for the construction of the canal necessary for the new power plant of the company along the Appomattox River, near Petersburg. Mr. W. C. Whitner, engineer for the company, will direct the work. The total cost of the canal and plant on the plans now contemplated will be in the neighborhood of seven hundred and fifty thousand dollars. A dam forty-eight feet high and extending for a great distance will be constructed first, and a large force, probably over three hundred, will be employed in the excavations and construction of this piece of masonry. The plan of the company is by damming up the water from the Appomattox to create a large lake twelve miles long, which will store water for the generation of power. The plan is glectared by the best engineers to be entirely feasible, and will meet all the needs of the company.
